Summary

Computer Science and Engineering (CSE) student in the final year of study, with a proven track record of academic excellence and hands-on experience in front-end web development, including proficiency in HTML, CSS, and JavaScript. Possessing a strong foundation in core computer science concepts, data structures, algorithms, and software engineering principles. Eager to leverage academic knowledge and technical skills to secure a challenging and impactful full-stack web developer role, where I can contribute to innovative projects and continue to grow as a software professional.

Education

Bachelor of Scinence in CSE

Daffodil International University │ 29-12-2026

Relevant Coursework:

- Data Structures and Algorithms
- Software Engineering Principles
- Front-End Web Development
- Back-End Web Development
- Database Management Systems
- Computer Networks
- Operating Systems
- Artificial Intelligence
- Machine Learning

Skills

Soft Skills

- Communication
- Teamwork
- Problem-Solving
- Time Management
- Critical Thinking
- Adaptability
- Interpersonal Skills

- Creativity
- Work Ethic
- Attention to Detail

Technical Skills

- Proficient in HTML, CSS, and JavaScript
- Experience with front-end frameworks, particularly React
- Knowledge of back-end development using Node.js
- Familiarity with database management systems, including MySQL and MongoDB
- Experience with version control using GitProfessional Affiliations

Academic Projects

- **Scholars Haven Fall 2024**: Hostel Management System project utilizing HTML, CSS, and JavaScript, with a PHP and MySQL backend. Features include Admin and Student sections. Students can view available rooms and book a hostel, while Admins can manage rooms, students, and other aspects of the system.
- **MoviesDB (Front-End Project) Spring 2024**: Developed a front-end web application using HTML, CSS, and JavaScript to provide users with information and interaction for movies and TV series. Implemented features to display upcoming releases, fan favorites, and currently running shows. Integrated a review system enabling users to submit and view ratings and opinions on content. Utilized JavaScript for dynamic content loading and user interface interactions. Designed and implemented the user interface using HTML and CSS for an intuitive and visually appealing experience.

Languages

- I am proficient in both spoken and written **Bangla** and **English**.
